

MLB SERVICE GROUP

1727 Holly Grove Rd
Livingston, Texas 77351

Commercial & Government Entity Services CAPABILITIES STATEMENT

CORPORATE INTRODUCTION & CAPABILITIES OVERVIEW

I'm Melissa Barnard, owner of MLB Service Group. I'll be real with you: we are a shop of many trades and talents, not a one-trick pony. My husband Brent handles our technical execution, and he has spent his life mastering a massive range of complex skills across tons of industries. He's done precision mechanical work, oilfield mechanics, automotive wiring, custom guitar building, country music production, hydraulic cylinder repacks, construction, carpentry, taxidermy and award-winning custom paint and airbrush work. He was a CDL truck owner-operator hauling heavy-haul permit loads, Chemicals, and even ran a full trucking company managing 50 trucks cross-country.

Most importantly, Brent is a licensed aircraft mechanic. He's held his FAA A&P license since 1992, working in small FBO hangars where you have to be resourceful, precise, and completely disciplined because there is zero room for error. People who know his work will tell you straight up: there ain't nothing Brent Barnard can't build, drive, manage, or fix.

Right now, we are expanding our shop's capabilities, focusing heavily on kitted mechanical sub-assemblies and precision electronic box builds, with supporting capabilities in wire harness bundles. We are fully set up for in-shop, kitted contract manufacturing—where you ship us the components, enclosures, and step-by-step layout drawings, and we handle the precision bench assembly, hardware torquing, and quality control right here. We want to learn your specific trade inside and out. Brent is open to traveling directly to your facility for training to your exact assembly techniques and step-by-step processes under a sponsored travel and lodging agreement, or via a Mentor-Protégé partnership. You show him exactly how you want your recipes built, and he will deliver flawless execution.

GOVERNMENT & PROCUREMENT METADATA

- **CAGE Code:** 21C62
- **SAM.gov Registration:** Active / Registered
- **Operating Structure:** Independent Subcontractor
- **Primary NAICS Codes:**
 - **334418** – Printed Circuit Assembly (Electronic Assembly) Manufacturing
 - **335999** – All Other Miscellaneous Electrical Equipment and Component Manufacturing
 - **332710** – Machine Shops (Mechanical Assembly Support)

CORE COMPETENCIES

- **Kitted Contract Manufacturing:** Complete in-shop bench assembly from client-furnished components, hardware, and enclosures.
- **Precision Electronic Box Builds:** Secure spatial population, encasement, and physical structural isolation of sensitive circuitry.
- **Mechanical Sub-Assemblies:** High-discipline manual component mapping and hardware torquing adhering strictly to design specifications.
- **Interface & Cable Integration:** Robust wire harness bundle routing, panel-mounted connectors, and terminal routing.

DIFFERENTIATORS

- **FAA-Disciplined Execution:** Technical execution is directed by an FAA Licensed A&P Mechanic (since 1992). This brings a deep-rooted culture of zero-error discipline, strict regulatory adherence, and meticulous quality logging to ground-level manufacturing.
- **Print-to-Recipe Precision:** We operate without design drift. We assemble strictly to your step-by-step layout drawings, hardware torquing specs, and exact engineering schematics.
- **On-Site Operational Agility:** To ensure absolute accuracy for specialized or proprietary setups, our Technical Director is available for temporary on-site facility training loops under sponsored travel agreements or Mentor-Protégé partnerships.
- **Lean & Responsive Scale:** As a dedicated independent facility, we bypass heavy corporate logjams. This allows us to initialize specialty contract assembly batches and adjust production lines rapidly.

PRIMARY POINTS OF CONTACT

Operational & Government Business POC:

- **Brent Barnard**, Technical Director

Administrative & Corporate Owner:

- **Melissa Barnard**, Owner / Administrator

Facility Contact:

- **Web:** mlbservicegroup.com
- **Inquiries:** Submit securely via our online Procurement Desk on our Contact page.
